

BIOGRAPHY

Dr. Ed Hoffman,

**Director, NASA Academy of Program and Project Leadership
NASA HQ**

As Director of the NASA Academy of Program and Project Leadership (APPL), Dr. Hoffman is responsible for the development of program and project leaders and teams within NASA. This includes the development and maintenance of a comprehensive program and project management competency model, training curriculum, consulting services for project management teams and knowledge sharing strategies. In this capacity, Dr. Hoffman works both within NASA and externally with leaders of industry, academia, associations and other government agencies in order to establish priorities and enhance capabilities in program and project management.

Dr. Hoffman is a visiting professor at the University of Technology at Sydney and serves as adjunct faculty at Webster University. He is a frequent invited speaker at conferences and associations and has authored numerous articles as well as co-authoring two books: "Shared Voyage" published in 2004 by the NASA History Office, and "Project Management Success Stories: Lessons of Project Leaders" published in 2000 by Wiley.

Dr. Hoffman holds a Doctorate as well as a Master of Arts and a Master of Science degree from Columbia University in the area of social and organizational psychology. He received a Bachelor of Science in Psychology from Brooklyn College in 1981. He resides in Maryland with his wife Dianne and two children, Amanda and Daniel.
